GitHub: github.com/kunaldesale47-maker

PROFILE

Second-year B-Tech Computer Engineering student with a strong academic record (9.11 first-year CGPA), programming fundamentals in C, C++, Python, and Object Oriented Programming, plus basic cybersecurity fundamentals. Interested in cybersecurity and building practical software projects.

PROJECTS

Shree Ganesh Kala Kendra — CEP Field Visit Project

Built a digital management web interface for a Ganapati idol business, supporting structured management of idols, orders, customers, and operational data.

Technologies: React.js, Tailwind CSS

Live: <https://shree-ganesh-kala-kendra.vercelapp/>

KrishiSetu — SIH Project

Developed a web-based agriculture-focused solution as an SIH project to organize useful information and services for users.

Technologies: Web technologies, JavaScript

Live: <https://krishisetu-sand.vercelapp/>

StockNews

Developed a full-stack stock-market news platform with categorized news, search, and backend integration for retrieving and organizing market-related news.

Technologies: React.js, Node.js, Express.js, MongoDB

Thin Film Interference Simulation

Created an interactive browser-based simulation to visualize thin-film interference concepts and support clearer understanding of physics concepts.

Technologies: HTML, CSS, JavaScript

EDUCATION

PES Modern College of Engineering — B-Tech,
Computer Engineering

Second Year | Expected Graduation: 2029 | First-Year
CGPA: 9.11

Vasantao Naik Secondary & Higher Secondary

Ashram School,
Galan Bk., Tal-Pachora, Dist-Jalgaon — Class XII
81.83% | 2025

Madhyamik Vidhyalay,

Brahmanshevage, Tal. Chalisgaon — Class X
87.60% | 2023

TECHNICAL SKILLS

C, C++, Python,
Object Oriented Programming (OOP),
Git, GitHub,
Cybersecurity Fundamentals (Basic)

LANGUAGES

Marathi, Hindi, English
